REWARD

$10,000.00 U.S. CASH

If you can prove Fairhope Mayor Tim Kant and State Senator Trip Pittman *are telling the truth*, about their involvement in the $639,000 BP Boom Grant to Fairhope.

Kant and Pittman continue to lie to their constituents about the grand jury and the multiple investigations. They insist they did nothing wrong. However, documents prove their guilt.

Unfortunately, these investigations last years, allowing the same individuals to commit more crimes—like the $12 million Triangle Lawsuit Fraud.

It took six years to convict Stan Wright, Mayor of Bayou La Batre and seven years to convict Ray Nagin of New Orleans.

The Kant-Pittman fraud investigations (Feds and BP) are going on three years. However, the documents have been provided to the Fairhope City Council, which has refused to conduct any internal investigation. There is no accountability.

To collect the reward you must prove that I, Francis Ripp, and the press, are making false statements, and that primary evidentiary documents are fabricated.

Why should we, the citizens, wait for state and federal investigators to clean up our local government corruption?

I offer this lucrative reward hoping citizens will realize that the money that was mishandled is THEIR money

I demand that the city council investigate the mayor and senator and provide us with the accountability, ethics and transparency that they pledged as candidates for public office.

Who's Telling the Truth?

Connie Baggett's article November 20, 2010 article titled, "Senator's Company Awarded $639,000 while he supervised grants for boom work," exposed for the first time to the public the crime committed by Pittman and Kant.

The official contractor of record recorded in Clanton, Alabama with the Alabama Emergency Management Office, lists Oil Recovery of Mobile as the contractor of record for the execution of the Fairhope Boom Grant.

The following news articles outline the nature of this crime:

Fairhope Courier August 11, 2010 – "Commissioner-Elect's Company awarded $1 million contract" by Mike Odom
